Re: George Psaledakis/Project(s) Closeout

Dear Jack:

Now that the three projects your firm worked with us at Diablo Valley College are completed, I wanted to express my thoughts regarding George Psaledakis.

We first of all, appreciated the overall work of your firm and everyone at the college is very pleased with all three projects (Physical Science, Library and Music). However, you and I both know some of the difficulties endured due to several NBBJ personnel changes, both design and CM for each of the projects.

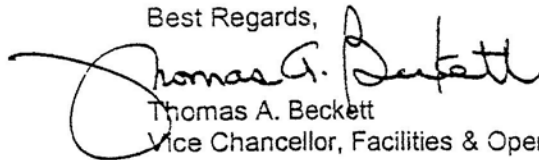

Simply put, the efforts of George Psaledakis, who entered into very difficult circumstances for each of the projects, deserves special attention and recognition. George's experience, tact, professional skills and ability to quickly resolve complex issues, turned each of these projects from difficult and problematic; to on track and successful completions.

You and I both need to recognize and express our appreciation to George for doing such a remarkable job – particularly in light of the situation and circumstances he found upon his arrival. I assume you sent him here because of his skills, but he deserves special recognition.

I have expressed my sincere thanks and appreciation to George and would welcome any opportunity to work with him again. The same also applies to you and NBBJ.

Thanks for assisting Diablo Valley College grow in a very positive way. I look forward to the possibilities of future dealings with your firm.

Best Regards,

Thomas A. Beckett
Vice Chancellor, Facilities & Operations

November 16, 2003

Dear Sir/Ms.:

I am writing in reference to Mr. George Psaledakis with whom I have worked on state project Richmond Laboratories, Phase I and II, at Richmond, California from July 1, 2001 through to the present.

The construction projects consisted of laboratory facilities for the State Department of Health Services, Type I construction, three levels, Occupancy Groups H6, 7 & B, with Bio Safety Levels 1 through 3. The facilities are self-contained.

The Department of General Services contracted with the architectural firm, NBBJ, who employed Mr. Psaledakis in the capacity of on-site Architect and Project Manager.

Mr. Psaledakis has earned my utmost respect, is a self-starter, and readily assumes responsibility. He has provided knowledge and leadership on a level that brought the projects to a successful completion, regardless the circumstances/ restrictions under which he was required to work.

Please feel free to contact me if you would like additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Peter J. van Eekelen', written over a light blue circular stamp.

Re: Letter of Recommendation
George Psaledakis – Architects Orange

To whom it may concern:

This letter is being provided to give recommendation to George Psaledakis in regards to his capacity and qualifications as an Architect.

We have had the pleasure of working with George on numerous City Sports projects in Northern California over the last two years and George has provided a level of insight not commonly found in architects to our construction projects. He is adept at looking forward to potential issues that commonly arise on fast-paced retail projects. George can be relied upon to provide time sensitive solutions when needed. His past construction experiences have served him well on jobsites during periodic site reviews and during project meetings. He is a valued asset that can communicate clearly and timely. George raises the bar on the level of service that his peers should aspire to.

We appreciate George's strength and team approach and would recommend his services to any potential owner/developer for any potential project.

Please feel free to contact me at 408.551.0492 if you have any questions.

Sincerely,
Tilton Pacific Construction

Harvey Hwang
Vice President of Operations
